unibox[®]
retail display

Constructed from Unibox Modular Aluminium Profiles and Class One fire-rated, beech laminated MDF panels. Alternative finishes available on request.

//halo merchandising unit

Cutting edge design, high quality, attention to detail, versatility, efficiency in production, all are synonymous with the Halo unit and all Unibox products.

The Halo RMU offers the perfect quality, retail display solution to independent and multiple traders alike. You can specify The Halo unit to suit your individual display requirements.

Features & benefits:

- Halo lighting canopy featuring 10 spot lights
- Secure storage
- Lockable castors for ease of movement
- Fire rated, durable materials
- Cable management for till point
- Extensive range of accessories
- Fully extendable draw to front

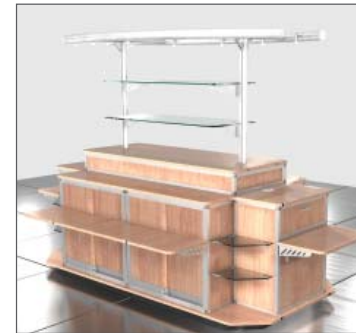

If you require an alternative layout or design, other than the halo, please visit our gallery at www.unibox.co.uk/rmu, for inspiration. Alternatively you may wish to contact us directly on 0161 277 6020.

//accessories 1

Start with a base unit, illustrated on the left, then build up by adding any or all of the following:

- //1. Central, eye level, glass display shelves
- //2. Central staging
- //3. Side cantilever shelving
- //4. End cantilever shelving
- //5. Signage

Adding all of the above to the generic base unit results in an RMU as illustrated.

For further accessory options see the back page of this leaflet.
