## //designer av display kit

The Metro display range merges design and practicality to create a new format for portable or static displays. Using the Unibox Modular System, Metro kits offer unbeatable flexibility and stability for both public and trade applications.

# //metro m10

An innovative structure, the M10 AV friendly system is the natural expansion to the already world renowned Unibox Metro family.

Constructed from the Unibox Modular System the M10 is designed to hold up to a 32" LCD screen coupled with secure storage for a laptop. The M10 unit is further complimented with the easy addition of graphic panelling to each side and a matching mobile counter unit.
